

Seminar

Interactive Classroom

Learn how SMART products transform learning in your classroom.

Attend the Interactive Classroom seminar to see how you can easily create lesson activities with the pilot version of SMART's Lesson Activity Toolkit – the newest addition to Notebook™ collaborative learning software resources. The Toolkit is full of customizable tools and templates that you can use to create professional-looking lessons with engaging and interactive content.

You'll also have an opportunity to learn how two outstanding educators use SMART products to teach lessons, engage students and encourage participation.
